

SETA NETWORK COURSE CATALOGUE

Accredited Training Standards & Network Course Portfolio

A client-facing catalogue of SETA-accredited training pathways available through Mbele M International and its partner network of accredited providers.

100% Black-owned

Transformation-aligned training partner

SETA network

Broad partner accreditation access

Client-ready

Built for website download and proposals

Skills. People. Progress.

A stronger training ecosystem for employers, learners and communities.

01 · STANDARDS FRAMEWORK

A practical accreditation-led training framework

Mbele M International works through an ecosystem of accredited partners to align training delivery with recognised qualification standards, workplace needs and learner support requirements.

Verified scope

Programmes are offered according to the current accreditation scope of the relevant accredited provider or partner.

Quality delivery

Facilitation, assessment, moderation and learner evidence are managed against programme requirements.

Client reporting

Employers receive structured programme information, implementation planning and completion evidence where applicable.

Important: programme availability is subject to partner accreditation scope, learner entry requirements and current SETA/QCTO/SAQA registration status.

02 · FULL SETA LANDSCAPE

Coverage across South Africa's 21 SETA sectors

The network catalogue is structured across all major SETA sectors so potential clients can identify the training pathways aligned to their industry.

AGRISETA Agriculture, agri-business and primary production

FASSET Finance, accounting, tax and business services

MICT SETA Media, ICT, telecommunications and digital skills

BANKSETA Banking, financial services and digital finance

FOODBEV SETA Food and beverage manufacturing

MQA Mining and minerals sector

CATHSSETA Culture, arts, tourism, hospitality and sport

FP&M SETA Fibre processing, clothing, textiles and manufacturing

PSETA Public service and administration

CETA Construction and built environment

HWSETA Health, welfare and community services

SASSETA Safety, security, legal and defence sectors

CHIETA Chemical industries, manufacturing and lab operations

INSETA Insurance, risk and wealth management

SERVICES SETA Business services, management, project and customer operations

ETDP SETA Education, training and development practices

LGSETA Local government and municipal services

TETA Transport, logistics, aviation, maritime and rail

EWSETA Energy, water and environmental infrastructure

MERSETA Manufacturing, engineering and related services

W&RSETA Wholesale, retail and supply chain trade

03 · COURSE PORTFOLIO

Digital, Business & Finance

SETA-aligned course areas available through the Mbele M International partner ecosystem.

SETA / pathway	accredited course areas	client application
MICT SETA	Systems Development; End User Computing; Technical Support; System Support; Business Analysis; data, cloud, cybersecurity and digital literacy skills programmes.	IT learnerships, digital transformation, helpdesk, software, data and workplace technology skills.
SERVICES SETA	Business Administration; Generic Management; Project Management; New Venture Creation; Contact Centre; customer service; sales and operations skills.	Corporate training, learnerships, SMME support, management development and customer operations.
BANKSETA	Banking operations; financial services; credit; compliance; digital banking; customer service and financial literacy skills.	Banking learnerships, financial service readiness and workplace upskilling.
FASSET	Accounting technician; bookkeeping; finance administration; payroll; tax support; financial management and office finance skills.	Finance departments, graduates, admin teams and accounting support pathways.
INSETA	Short-term and long-term insurance; claims administration; underwriting support; wealth management; risk and compliance.	Insurance administration, client service, claims and compliance talent pipelines.

04 · COURSE PORTFOLIO

Education, Public Sector & Social Impact

SETA-aligned course areas available through the Mbele M International partner ecosystem.

SETA / pathway	accredited course areas	client application
ETDP SETA	Facilitator, assessor and moderator development; ODETDP; early childhood development; adult education and training support.	Training teams, facilitators, assessors, community education and learning support projects.
HWSETA	Community health work; social auxiliary services; health promotion; care support; wellness and community development skills.	Community programmes, health awareness, care support and social impact initiatives.
LGSETA	Municipal administration; local government finance; community development; ward committee support; public participation.	Municipal capacity building, public administration and community service delivery.
PSETA	Public administration; public sector management; records, governance, service delivery and government operations.	Public sector workforce development, administration and service improvement.
SASSETA	Private security; policing support; corrections; legal administration; safety and security operations.	Security industry skills, compliance, administration and safety-related workforce pathways.

Final programme packaging is confirmed against current accreditation scope, qualification rules, credits and client implementation needs.

05 · COURSE PORTFOLIO

Technical, Infrastructure & Industrial Skills

SETA aligned course areas available through the Mbele M International partner ecosystem.

SETA / pathway	accredited course areas	client application
CETA	Construction supervision; civil construction; building; plumbing; electrical construction support; health and safety in construction.	Built environment, infrastructure projects, contractor development and site-ready skills.
MERSETA	Automotive repair; fitting and turning; welding; mechanical engineering; manufacturing operations; motor retail and artisan support.	Manufacturing, engineering, maintenance and technical artisan pipeline support.
EWSETA	Water and wastewater operations; energy efficiency; electrical infrastructure support; renewable energy and environmental practices.	Utilities, infrastructure, green economy and technical operator development.
CHIETA	Chemical operations; laboratory practice; manufacturing process operations; safety, quality and production support.	Chemical, pharmaceutical, plastics, lab and process manufacturing environments.
MQA	Mining operations; mineral processing; occupational health and safety; supervision; underground and surface mining support.	Mining, minerals, quarrying and contractor workforce development.

Final programme packaging is confirmed against current accreditation scope, qualification rules, credits and client implementation needs.

06 · COURSE PORTFOLIO

Consumer, Agriculture & Production Sectors

SETA-aligned course areas available through the Mbele M International partner ecosystem.

SETA / pathway	accredited course areas	client application
AGRISETA	Plant and animal production; mixed farming; agri-business; farm management; food security; agricultural processing support.	Agricultural projects, rural development, farming cooperatives and agri-enterprise support.
FOODBEV SETA	Food processing; beverage manufacturing; quality control; hygiene; packaging; production operations and food safety.	Food factories, beverage operations, quality teams and production line skills.
FP&M SETA	Clothing and textiles; furniture; forestry; printing; packaging; footwear and fibre-processing manufacturing operations.	Manufacturing, production, fashion/textile and packaging workforce programmes.
W&RSETA	Retail operations; wholesale operations; store supervision; merchandising; supply chain, warehousing and customer service.	Retail learnerships, sales teams, stock control, store operations and trade support.
CATHSSETA	Hospitality; tourism; travel; events; sport administration; accommodation services; food and beverage service.	Tourism, hospitality venues, events, sport and service-experience development.

Final programme packaging is confirmed against current accreditation scope, qualification rules, credits and client implementation needs.

07 · COURSE PORTFOLIO

Transport, Logistics & Cross-sector Pathways

SETA aligned course areas available through the Mbele M International partner ecosystem.

SETA / pathway	accredited course areas	client application
TETA	Freight handling; logistics; supply chain; road transport; aviation support; maritime, rail and forwarding/clearing skills.	Logistics, transport operators, warehousing, supply chain and aviation pathway support.
Cross-sector management	Generic Management, team leadership, supervisory development, entrepreneurship and workplace communication across SETA pathways.	Useful for employers who need multi-site, multi-department workforce development.
Customer & BPO operations	Contact Centre and Business Process Outsourcing Support; call handling; complaints; customer communication and team performance.	Supports call centres, BPO operators, helpdesks, customer service and shared services.
Digital workplace readiness	Digital literacy, end-user computing, online collaboration, productivity tools and data handling for most workplace environments.	Ideal as a foundation layer before occupational training, learnerships or internships.
Workplace learning support	Learner onboarding, workplace readiness, mentorship, PoE support, assessment preparation and facilitator engagement.	Helps employers improve completion rates and workplace learning outcomes.

Final programme packaging is confirmed against current accreditation scope, qualification rules, credits and client implementation needs.

08 · PROGRAMME TYPES

Flexible accredited learning pathways

Clients can select full qualifications, learnerships, short skills interventions or customised workplace programmes depending on operational needs.

Full Qualifications

Structured accredited programmes aligned to NQF levels, credits and assessment requirements.

Learnerships

Workplace-linked learning that combines theory, practical learning and workplace experience.

Skills Programmes

Focused unit standard or part-qualification interventions for targeted capability building.

Corporate Training

Tailored workforce development built around employer needs, project outcomes and business objectives.

Workplace Readiness

Communication, digital literacy, professionalism and job-readiness preparation.

Recognition Pathways

Support with evidence, PoE readiness and learning pathways where applicable.

Digital Delivery

Online materials, assessments and learner support through platforms such as Learnhive.

Project Support

Recruitment, onboarding, host employer support, coordination and reporting.

09 · ACCREDITED STANDARDS

Quality controls built into delivery

Each programme is packaged with controls that support compliance, learner success and client confidence.

Scope confirmation

Validate the accredited provider, programme scope, qualification/skills programme alignment and SETA/QCTO requirements.

Learner entry checks

Confirm learner profile, entry requirements, documentation and suitability for the selected pathway.

Facilitation plan

Set out delivery mode, schedule, facilitator responsibilities, attendance and learner support requirements.

Assessment process

Manage assessment activities, submissions, evidence collection and Portfolio of Evidence readiness.

Moderation & verification

Apply internal moderation and prepare records required for external moderation or verification where applicable.

Reporting & close-out

Provide client reporting, progress records, completion summaries and supporting evidence for audit readiness.

Every accredited programme should be supported by a delivery plan, assessment plan, moderation plan and close-out report.

Blended delivery through Learnhive

Learnhive strengthens the digital learning layer for study material, assessments, communication and facilitator engagement.

Online study material

Modules, learning guides and supporting resources are accessible digitally.

Digital assessments

Assessment activities, submissions and tracking can be managed online.

Facilitator engagement

Facilitators can guide learners, share updates and support progress.

Learner support

Centralised communication improves visibility and learner experience.

 Learnhive

The internet classroom

A connected digital space for learners and facilitators to access content, submit assessments and engage online.

Learnhive can be positioned as a value-added delivery layer for employer-funded and large-scale skills projects.

11. CLIENT MODEL

How clients can use the network catalogue

A practical workflow for converting training needs into accredited programme delivery.

01 Needs alignment

Identify workforce gaps, target learner groups and preferred SETA sector.

02 Scope verification

Confirm the accredited partner and qualification/skills programme scope.

03 Programme design

Package duration, delivery method, assessment plan and workplace requirements.

04 Host employer model

Match learners to host employers or integrate training into the client workplace.

05 Delivery & support

Manage facilitation, Learnhive, attendance, PoE support and learner communication.

06 Close-out

Report progress, completion, moderation readiness and programme outcomes.

Built for corporates, public sector projects, SETAs, host employers and workforce development partners.

12 · DOCUMENTATION

Documents clients can request

For each selected programme, Mbele M International can coordinate supporting documentation from the relevant accredited partner.

Accreditation letter

Current provider accreditation or programme approval evidence.

Qualification details

SAQA/QCTO/SETA details, NQF level, credits and target learner profile.

Learning programme outline

Modules, outcomes, duration, delivery model and assessment structure.

Implementation plan

Schedule, venue/platform, facilitation resources and project responsibilities.

Assessment & moderation plan

Evidence collection, assessor/moderator arrangements and quality controls.

Completion records

Attendance, progress records, PoE readiness and close-out reporting.

This catalogue should be used for business development. Final confirmed programme schedules and accreditation packs are issued during project onboarding.

13 · SECTOR SELECTION

Choose the right SETA pathway

Clients can start with industry, job role or development objective. We then match the best available accredited pathway from the network.

Client need	Recommended pathway
Need IT or digital skills	MICT SETA / digital readiness / Learnhive-enabled delivery
Need admin, management or customer service	Services SETA / PSETA / Contact Centre and BPO
Need finance, banking or insurance skills	FASSET / BANKSETA / INSETA
Need education or facilitator capability	ETDP SETA / assessor, moderator and learning support pathways
Need technical, energy, construction or mining skills	CETA / MERSETA / EWSETA / CHIETA / MQA
Need retail, agriculture, tourism or logistics skills	W&RSETA / AGRISSETA / CATHSSETA / TETA / FOODBEV

14 · COMPLETE SETA LIST

Complete SETA sectors covered by the network catalogue

A quick reference for industry alignment during client consultations.

AGRISETA	BANKSETA	CATHSSETA	CETA	CHIETA
Agriculture	Banking	Culture	Construction and built environmen	Chemical industries
ETDP SETA	EWSETA	FASSET	FOODBEV SETA	FP&M SETA
Education	Energy	Finance	Food and beverage manufacturing	Fibre processing
HWSETA	INSETA	LGSETA	MERSETA	MICT SETA
Health	Insurance	Local government and municipal se	Manufacturing	Media
MQA	PSETA	SASSETA	SERVICES SETA	TETA
Mining and minerals sector	Public service and administration	Safety	Business services	Transport
W&RSETA				

Clients can request a tailored programme schedule once the target sector, learner profile and intended outcomes are confirmed.

15 · VERIFICATION NOTE

Accreditation integrity statement

Mbele M International promotes responsible, transparent and verifiable accredited training partnerships.

The courses listed in this catalogue represent the broad accredited training areas available through the Mbele M International partner network. Before any client proposal is finalised, the exact programme title, provider accreditation scope, SAQA/QCTO/SETA registration status, NQF level, credits, duration and delivery requirements should be verified and confirmed in writing.

This protects clients, learners, employers and accredited partners - and ensures that each project is implemented using the correct quality assurance, assessment and moderation process.

A professional accreditation pack can be supplied for each confirmed programme.
